ABOUT US

CIVIL CONTRACTORS, PLANT & EQUIPMENT HIRING SERVICES

Jepnik Investments (Private) is primarily a civil contractor and supplier of tars, bitumen, emulsions, road construction equipment, accessories, and machinery. No project is too small or too big for Jepnik, from commercial parking lots to residential streets and four-lane highways. As a general contractor, we possess the management and field expertise, equipment, and construction products required to complete any job.

The company operates a strategic business unit, Jepnik Civil Contractors (JCC), a professional highways and road construction company based in Harare, Zimbabwe. JCC manages road and highway construction projects from inception to completion. Our services include road and motorway construction, road maintenance, road surfacing, and resurfacing. We plan and execute all major components of highway schemes in-house, ensuring proper management, on-time completion, and adherence to budget.

OUR MISSION

Our mission is to be the first-choice civil contractor for our customers, provide a stable employment environment for our people, and exercise a reasonable balance between risk, integrity, and profitability.

OUR VISION

Guided by God-fearing principles, we will be the first-choice civil contractor and supplier of road building supplies in Zimbabwe & the Region. By the year 2030, we will have established a vibrant branch network in every town across the country.

OUR VALUES

- » Trust
- » Integrity
- » Accountability
- » Quality Workmanship
- » Customer Satisfaction
- » Safe Working Environment
- » Team Member Growth & Development
- » High Quality & Reliable Products

OUR PRODUCTS & SERVICES

CIVIL CONTRACTING

JCC has extensive experience in all types of paving work, specializing in:

- » Highways
- » Local Roads
- » Private Drives
- » Subdivisions
- » Commercial Parking Lots
- » Industrial Drives
- » Airport Runways & Taxiways

Our project managers oversee all aspects of projects from start to finish, acting as liaisons between JCC and our customers to ensure timely, efficient, and professional project completion. Quality and service are their top priorities.

STRUCTURAL MAINTENANCE

We offer structural maintenance techniques that aim to increase a pavement's structural capacity. Asphalt resurfacing is the most common structural repair for parking lots. For successful long-term results, proper timing and consideration of base and sub-base layer conditions are crucial. To maximize longevity, routine maintenance must be performed regularly after structural repair.

PREVENTATIVE MAINTENANCE SERVICES

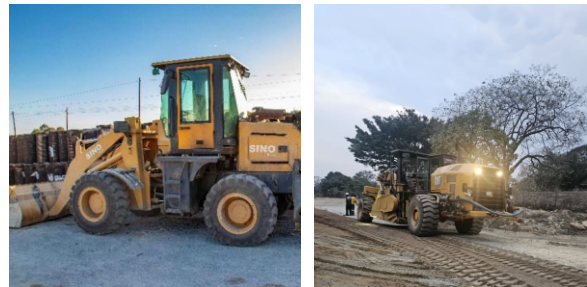

- » Asphalt Patching and Repair.
- » Seal Coating
- » Crack Sealing
- » Concrete Maintenance
- » Catch Basin Adjustment
- » Pavement Marking

EQUIPMENT SALES & RENTALS

Jepnik Investments sells and rents a wide range of construction equipment of all sizes and descriptions, including:

- » Excavators
- » Front Loaders
- » Graders
- » Dozers
- » Water Bowsers
- » Tippers
- » Pneumatic Rollers

We offer both long-term and short-term rentals to meet the specific needs of your project.
